Overview

Who we are

We are Andolasoft Inc. We help businesses, big or small, and make their dreams come true. We conceptualise design, QA & support apps, both Mobile and Web. We have been in business for more than 11 years, with a satisfied clientele of 500 customers across the globe.

Why Andolasoft Inc.

There are tons of reasons that set us apart from our peers. Here you go,

You can Trust us

Your ideas are dear to you as well as us. We sign the NDA to protect your intellectual property. So, you can sit back and relax. Let us handle it.

We are 100% Transparent

We value your trust. We send you daily updates as we progress with the development, ensuring you not you wonder about the status.

We are always in your budget

You spend only as much as you would on one developer. And you enjoy the benefits of multiple skills. You save up to 60% of the amount you would have spent on your local resources.

We follow Agile Workflow

Our Agile workflow makes completion of milestones smoother. We reduce your project risks and guarantee customer satisfaction.

We have Full-Time Developers

We offer full-time developers who overlap or work in your timezone. You can connect them directly over, Slack, Skype, Meet or PM Tools like Orangescrum, Jira, Trello or Asana as you like.

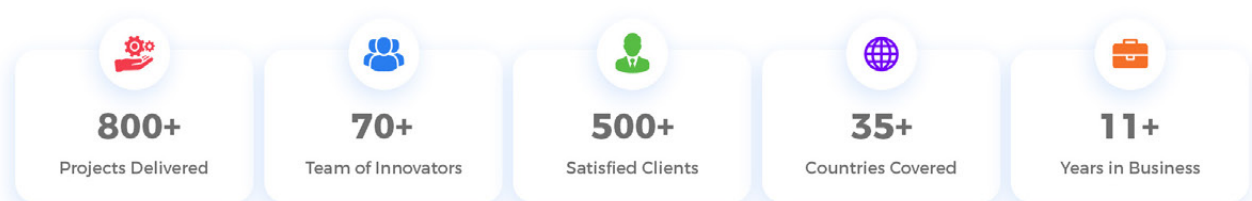

Value for Money

With a cost effective solution we provide you applications those help you monetize, be it B2C or B2B.

Infrastructure Support and Maintenance

Be it Web or Mobile app, we take care of deployment, support & maintenance. Our process is completely reliable and hassle free.

What Our Customer Saying

AndolaSoft has been a valued partner providing excellent customer service for AuditNet®. Issues with clients or troubleshooting issues are handled in a timely manner & positive resolution is always the outcome. Updates & security issues have been addressed proactively. We look forward to a continued relationship with the staff.

Jim Kaplan | Founder, AuditNet

Andolasoft is an invaluable partner for us a startup. The team is great to work with and the projects are delivered in a timely fashion. I know that I can rely on Andolasoft for future projects because of the depth of resources/skills that they offer.

Adler Camacho | USA

I've worked with the team at AndolaSoft on multiple websites -- They are professional, responsive, and easy to work with. I've had great experiences and would recommend their services to anyone.

Ruthie Miller | Senior Marketing Specialist, Salesforce, Houston, Texas

Andolasoft has provided a first class and professional service for our web application. Andolasoft solved all problems and was innovative in their approach to the tasks. There is also a great depth of specialist resources within Andolasoft to call upon for specialised assistance. The overall service, from determining the scope of work, the project management to the invoicing and payment for services, is user friendly and efficient. We look forward to our continued work with Andolasoft.

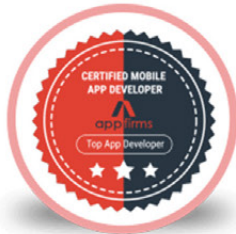

John Skeet | Director, Goss Closet Pty Ltd, Australia

FAQ

1. Can I manage the content on my WordPress website myself?

The Content Management Systems provide you full control on the creation and management process of the digital content on your website. You do not require any programming language for this.

2. Should I buy a WordPress license to use it?

No you don't need to purchase a Wordpress licence to use it. As Wordpress is a free and open source Content Management System (CMS), that is issued by the GNU Public License.

3. My existing website is outdated. Can you redesign and build my website on WordPress?

Yes, your website can be redesigned and rebuilt on Wordpress even if your existing website is outdated.

As your website holds the potential to be the major avenue for business and leads. Therefore it is important to keep your website updated with the latest technology and design trends.

Our professional Wordpress development team will analyze the present website and will offer a website revamp plan that doesn't affect your business continuity.

4. What's your expertise in CMS website development?

Andolasoft has been using Wordpress since ages, Andolasoft has built its niche in providing cost effective Wordpress websites to the clients for years.

5. Should I have my website hosted only on your server?

No, you can choose your own web hosting service. We can assist you in moving the website to your chosen hosting providers.

6. Do you provide online marketing for my website?

As, Andolasoft is a full time Web and mobile application development company but we have expertise in Digital Marketing for our product and services. We collaborate with these businesses to deliver integrated digital marketing solutions. So we can resonate and deliver effective solutions to your business.

FAQ

7. What kind of businesses do you work with?

We deal with a variety of companies. Such as technology, travel, health, arts, finance, fair trade and more.

8. How much does it cost to develop a WordPress website?

It completely depends on factors like website complexity, advanced features and the level of customization. After you send your project requirements, our team evaluates and sends you the quotes.

Why should I partner with Andolasoft?

Andolasoft, is an award winning company with many years of experience. It offers solutions in WordPress development and customizing your websites. We have delivered successful projects on time.

9. What do you need from my side to develop and launch my WordPress website?

To build your Wordpress website, we require a domain and server. But you don't have to worry about it, we will help you to set up your accounts.

10. What about the content of my WordPress informative website?

You need to offer the content, and we will create your Wordpress website accordingly. So you can easily update the content.

11. How do I communicate with your team? I am overseas.

As effective communication is important. We use smart and easy modes like email, Skype, Phone and Hangout, all that are convenient for you..

12. Which tool do you use for Project Management?

We use Orangescrum to manage our Project. It is our inbuilt PMS.

FAQ

13. In Between Development if I have any change request or out of scope functionality then how do you manage that?

In such cases, a proper discussion on these functions is held. Then it is measured how that functionality will affect the present scope. How many extra hours need to be spent? After figuring out all these things, all the information is shared to you.

14. How much does it cost to hire a WordPress developer?

A wordpress developer is available on a part time, full time and hourly basis. For any changes that are required in the project, the developers look for the client requirement.

Then , a feasibility test is conducted and the entire project breaks down to several milestones.

15. How can I track the developer's progress on my project?

At andolasoft, a transparent development process is followed. The client can directly communicate with the hired developers.

These developers keep you updated on the progress regularly. You can communicate with them through your preferred communication channel.

16. What experience do you have with WordPress theme development?

For the past 11+ years, we have been engaged in Wordpress development services. The expert developers deliver Wordpress powered solutions that are high in performance and profitability.

Until now, Andolasoft has served thousands of clients and have become successful to attain the admiration.

17. How much time does it take to build a site on WordPress?

To develop a custom website on Wordpress, the developers required weeks to months. It depends on the project complexity.

If you develop a theme from the beginning, it takes more time in comparison to theme customization. It includes the web designing team, to perfect the design that has core functionalities.
