# FUNCTIONALITY
## DETAILS

### TASK MANAGEMENT

Plan | Assign | Manage | Track

- Use task groups as subprojects, phases, or features to plan & execute projects seamlessly

- Assign transparently, monitor progress, contribute to discussion threads & complete tasks on time

- Track the smallest of tasks with subtasks

- Know where your teams are engaged most in a project & plan tasks accordingly

### TIME TRACKING

Automated | Simplified | Accurate | Efficient

- Automatically track time spent on your tasks

- Easily mark your billable hours and view your team's time spent in a single view.

- Quick Day, Week & Month views show how your teams are occupied and also tasks to be delivered during the day and week.

- Daily and weekly timesheets make your day simple and help you stay organized and save time

### RESOURCE MANAGEMENT

Know availability | Plan well | Deliver more | Utilize right

- Deliver projects on time or ahead of time and gain Higher Customer Satisfaction (CSAT)

- Easily track which resource is overloaded and re-plan task assignments for quicker delivery

- See which tasks were worked upon for how long by how many resources

- Generate payment receipts just like Pay Slips and send them to your freelancers and contractors

# FUNCTIONALITY
# DETAILS

## CUSTOM TASK STATUS

Define Flow | Improve Process | Automate

- Custom task status lets you build tailor-made workflows for every team & process in your organization

- Define a completion percentage (%) for every task status & when you update the status, task progress gets updated automatically.

- Automate & improve process adherence among your teams to adapt to the Project Management flow faster, and better!

## CUSTOM FIELDS

Simplify | Prioritize | Organize | Variations

- Custom fields help to organize your projects more efficiently and store more information about each one.

- Get more detailed data on tasks by adding custom fields to every task type in Orangescrum.

- Custom fields give you the space to store more data about your tasks, which makes it easier to track progress and get a clear view of what needs to be done.

- Custom Fields allows you to select the columns and fields that are most relevant for your report.

## BUDGET & COST MANAGEMENT

Budgeting | Spending | Billing Rate | Reports

- To specify the cost and keep transparency during planning, add the project budget metrics.

- Keep track of whether the overall estimated cost is going over budget, and if your project is at risk.

- With resource-based billing, you can set your project cost against organizational profits.

- View all the metrics in a project's profitability dashboard. It is a handy way to get an overview of how your project fares financially.

# FUNCTIONALITY
# DETAILS

### KANBAN VIEW

Todo List | Collaborate | Track Statuses | Communicate

- Take absolute control of all your tasks. Prioritize & assign transparently. Track to successful closure.

- Task changes get reflected immediately to everyone & make it easy to track real-time progress with Kanban Boards

- Visual project management with custom status. Align your processes seamlessly with the Kanban board.

- See what other team members are working on and gaze at project progress at a glance.

### TIMESHEET

Timer | Daily Time Sheet | Billable & Non-billable | Save Time

- Automatically track spent time on your tasks & get more time to focus on real work.

- Quickly see the progress of your favorite projects in no time and provide valuable insights to your clients

- Easily mark your billable and non-billable hours with a click.

- Edit, add and mark billable hours all in one place. Focus on what you do best - let the Daily Timesheet take care of the rest

### PROJECT CALENDAR

Plan | Estimate | Track | Share

- Orangescrum is built for teams who need to work together. Stay on the same page with your team while they're working remotely.

- It's easy to lose track of all that is happening in a project, but the Orangescrum Project Calendar helps you stay on top of everything.

- With a centralized timeline, you can see the entire project at a glance. Estimate and track your time much easier than ever before.

- Manage your team with the peace of mind that you have an accurate overview of your hours and time spent on tasks.

# FUNCTIONALITY
# DETAILS

## BUG AND ISSUE TRACKING

Detect | Prioritize | Assign | Track

- Our bug and issue tracking feature enable you to provide every detail about the development project's ongoing tasks.

- In Orangescrum high critical bugs are given priority over minor fixes by the development team.

- The details of the bug to be fixed would help assignee team members in fixing it quickly.

- The bug listing page provides a glance view of each bug's due date, priority, and status. Track the fixing status accordingly.

## WORKLOAD MANAGEMENT

Capacity Planning | See Availability | Resource Allocation

- Get a complete picture of your team's workload in the resource availability calendar.

- Check your team's capacity to not overload or no one sit idle for your projects.

- Plan your new or future projects by looking at the resource's capacity and workload in the calendar.

- Create new tasks or reassign or reschedule tasks instantly by looking at the resource availability to optimize your resource allocation.

## PROJECT TEMPLATES

Customizable | Easier | Eliminate Error

- Fully customizable templates to fit your teams' needs and project use cases

- Eliminate the scope for human error and missing out on process steps

- Information exchange is streamlined. No unwanted surprises

- Acts as a robust checks and balances mechanism for your projects and team members

# FUNCTIONALITY
## DETAILS

### GANTT CHART

Manage Task | Manage Dependencies | Visualize Tasks | Get Clarity

- Well defined task timelines prevent unwanted delays and keep the teams in sync

- Graphical representation makes it easier to analyze the project schedule

- Absolute clarity of roles and responsibilities for the team ensures timely execution

- Let your team members view what's next & who are they waiting for.

- A quick glance & you know the task progress, what's on time and what is going to be delayed

### INTEGRATIONS

Improves Agility | Automates Processes | Improves Scalability

- Handle projects with your favourite tools

- Integrate GitHub, Slack, Google Calendar, Zapier, Zoom, SSO

- Make your development process & project management easier, simpler and more effective.

- Seamlessly integrate your data with Orangescrum

### USER ROLE MANAGEMENT

Control | Protect | Enable permissions

- Define custom role groups, assign roles & customize the access privileges for each role as per project requirements

- Strike the perfect balance between collaboration & control.

- Enable permissions based on the users' role in a project so that they have the right access levels to do the job while project information is well-secured.

- Define specific permissions relevant to the various teams for focused execution.

# FUNCTIONALITY
## DETAILS

## REPORT & ANALYTICS

Get Reports | Track | Measure | Improve Profitability

- Get a deeper understanding of your projects.

- Valuable insights for prompt decision making & greater control of your business.

- Track the time being spent with respect to the allocated time, to ensure not to have any slippage; Achieve 2x profitability

- Always get the full picture, course-correct in time and drive projects to success.

## MOBILE APPLICATION

Quick Connect | Collaborate Easy | Contribute More

- Create, plan and assign projects easily.

- Free yourself from email exchanges.

- Plan, prioritize and manage your daily activities.

- Share & Receive progress in real-time with your customers.

- Classify & Organize tasks in a meaningful manner.

- Stay connected, Stay in control, and Stay ahead with The Orangescrum Project Collaboration Tool Mobile App

## INVOICE & BILLING

Accurate | Dependable | Actionable | Efficient

- Customized billing for your Clients - We understand that "customers" come in all sizes and have their own paying terms. Some may want role-based rates, some a default hourly rate or a pre-fixed sum

- Do it all with ease! Set easy recurrence for your invoices and have them automatically delivered to your Client's inboxes

- Define roles for your projects and assign hourly rates to each role

- Send invoices directly from Orangescrum as PDFs

# TESTIMONIALS

### Pedro Artur Oliveira
Gestor de clientes (Manager)

"OrangeScrum ensure over my projects in a way I did not find in any other platform. I have a greatfeeling about the evolution of the platform and new feature add-ons, Congratulation to all team."
